

Popular Securities LLC

(a wholly-owned subsidiary of Popular, Inc.)

Statement of Financial Condition

December 31, 2017

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Member of Popular Securities LLC

Opinion on the Financial Statement – Statement of Financial Condition

We have audited the accompanying statement of financial condition of Popular Securities LLC (the "Company") as of December 31, 2017, including the related notes (collectively referred to as the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of December 31, 2017 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

The financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit of this financial statement in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud.

Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

PricewaterhouseCoopers LLP

March 1, 2018

We have served as the Company's auditor since 1995.

1. Nature of Business and Summary of Significant Accounting Policies

Popular Securities LLC (the "Company") is engaged in investment banking, brokerage, and financial advisory services and is a member of the Financial Industry Regulatory Authority (FINRA). The Company operates principally in the Commonwealth of Puerto Rico and is a wholly-owned subsidiary of Popular, Inc. ("Parent Company").

The Company is a registered broker-dealer pursuant to section 15(b) of the Securities Exchange Act of 1934. The Company is exempt from the provisions of Rule 15c3-3 (the "Rule") under the Securities Exchange Act of 1934, in that the Company's activities are limited to those set forth in the conditions for exemption appearing in paragraph (k)(2)(ii) of the Rule. As an introducing broker, the Company clears customer transactions on a fully disclosed basis with National Financial Services, LLC ("NFS"), clearing broker, and promptly transmits all customer funds and securities to NFS. NFS carries all of the accounts of such customers and maintains and preserves books and records related to these accounts. In addition, the Company is licensed by the Office of the Commissioner of Financial Institutions of the Commonwealth of Puerto Rico as a registered broker-dealer and as an eligible similar institution under Regulation 5105.

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America (GAAP) and industry practices. Following is a description of the significant accounting policies followed by the Company:

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Management believes that these estimates are adequate. Actual results could differ from those estimates. Estimates are used for, but not limited to, loss contingencies and financial instruments owned at fair value.

Income Recognition

Commissions

Commissions and related expenses are recorded on a trade-date basis as securities transactions occur.

Investment Banking

Investment banking revenues, net of syndicate expenses, arise from offerings in which the Company acts as an underwriter or agent. Investment banking revenues also include fees earned from providing corporate finance advisory services. Investment banking revenue is recorded as follows: 1) underwriting fees at the time the underwriting is completed and income is reasonably determinable, 2) corporate finance advisory fees as earned, according to the terms of the specific contracts, and 3) sales concessions on a trade-date basis.

Popular Securities LLC
(a wholly-owned subsidiary of Popular, Inc.)
Notes to Financial Statements
December 31, 2017

(dollars in thousands)

Principal transactions, net

Principal transactions, net are the trading gains and losses which are composed of both realized and unrealized gains and losses. These are recorded as the difference between the acquisition cost and the selling price or fair value. For presentation in the financial statements, these are reported net, on a trade date basis.

Interest and Dividend Income and Interest Expense

Interest income is earned by the Company on its trading portfolio. Interest expense arises from interest on cash borrowings to finance payment for securities purchased, and interest to subordinated lenders. Dividend income is derived from the investment in investment companies, and is recorded at ex-dividend date.

Investment Advisory Fees

Investment advisory fees are based on the net assets of the client accounts. These revenues are received quarterly but are recognized as earned on a pro rata basis over the quarter.

Other Revenues

Other revenues include fees charged on debit balances in customer margin accounts, and fees earned on distribution of investment companies stock.

Receivables from and Payables to Broker-Dealers

At December 31, 2017, receivables and payables to broker dealers consist of the following:

Receivables

Net unsettled transactions	\$	2
Clearing broker		667
Other		392
	<u>\$</u>	<u>1,061</u>

Payables

Net unsettled transactions	\$	2
Other		2
	<u>\$</u>	<u>4</u>

The Company entered into an agreement with NFS providing for margin borrowing with no predetermined limit or maturity date. The interest rate on this borrowing is the prevailing Brokers Call rate less 55 basis points. At December 31, 2017, the interest rate was 2.70%. There was no outstanding balance under this agreement as of December 31, 2017.

Cash

Cash includes cash on hand and in banks.

Popular Securities LLC
(a wholly-owned subsidiary of Popular, Inc.)
Notes to Financial Statements
December 31, 2017

(dollars in thousands)

Fixed Assets

Fixed assets are composed of furniture, equipment and leasehold improvements. Furniture and equipment are initially recorded at cost and depreciated using the straight-line method over the estimated useful life of the related assets (between 3 and 10 years). Leasehold improvements are amortized over the lesser of the economic useful life of the improvement or the term of the lease.

At December 31, 2017, fixed assets, net consist of the following:

	Useful life in years	Cost
Leasehold improvements	10	\$ 2,024
Furniture and fixtures	5	1,644
Electronic equipment	3	299
		<u>\$ 3,967</u>
Less - accumulated depreciation and amortization		<u>(3,299)</u>
		<u>\$ 668</u>

Other Assets

Included in Other Assets are forgivable loans made to financial consultants, typically in connection with their recruitment. These loans are forgivable based on continued employment and are amortized over the terms specified in each agreement, which is generally four to nine years, using the straight-line method. Total net forgivable loans as of December 31, 2017 amounted to approximately \$435. At December 31, 2017 the Company has a reserve for uncollectible loans amounting to \$1,485. Also included in Other Assets are \$252 in Prepaid expenses, mostly related to software packages.

Allowance for Doubtful accounts

The Company provides an allowance for doubtful accounts based on the estimated uncollectible amounts on unsecured counterparty balances receivable. The Company's estimate is primarily based on a review of the current status of specified accounts receivable. Provisions made to this allowance are charged to operations and included in other expenses in the Statement of Operations. There was no allowance for doubtful accounts as of December 31, 2017.

Popular Securities LLC
(a wholly-owned subsidiary of Popular, Inc.)
Notes to Financial Statements
December 31, 2017

(dollars in thousands)

Income Taxes

Effective January 1, 2014 the Company changed its organization charter from Corporation to Limited Liability Corporation (LLC). Upon this change, the Company made an election under the Puerto Rico Tax Code to be treated as a partnership. As a result of this election, the Company's tax attributes will flow through to its Parent Company. Therefore, no current or deferred taxes will be reported in the Company's financial statements going forward.

Since the Company is a tax conduit entity, no provision for income tax is presented in its standalone financial statements, and its related income tax accounts were derecognized as of the effective date of the election.

The Company has no open uncertain tax positions as of December 31, 2017. Tax year 2013 is open to examination by the Puerto Rico taxing authorities.

Other Intangibles

Other intangible assets are recognized separately from goodwill when they arise from contractual or other legal rights or are separable and their fair value can be measured reliably. Other intangible assets that have a finite useful life are amortized over a period based on the expected useful life.

2. New Accounting Pronouncements

*FASB Accounting Standards Update ("ASU") 2016-15, Statement of Cash Flows (Topic 230):
Classification of Certain Cash Receipts and Cash Payments*

The FASB issued ASU 2016-15 in August 2016, which addresses specific cash flow issues with the objective of reducing existing diversity in practice, which may lead to a difference in the classification of transactions between operating, financing or investing activities. Among other things, the guidance provides an accounting policy election for classifying distributions received from equity method investees and clarifies the application of the predominance principle.

The amendments of this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. Early adoption is permitted. Entities will be required to apply the guidance retrospectively to all periods presented, unless it is impracticable to do so.

The Company does not anticipate that the adoption of this accounting pronouncement will have a material effect on its statement of cash flows.

FASB Accounting Standards Update ("ASU") 2016-02, Leases (Topic 842)

The FASB issued ASU 2016-02 in February 2016, which supersedes ASC Topic 840 and sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessors and lessees. The new standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease, respectively. A lessee is also required to record a right-of-use asset ("ROU") and a lease liability for all leases with a term greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. The new standard

Popular Securities LLC
(a wholly-owned subsidiary of Popular, Inc.)
Notes to Financial Statements
December 31, 2017

(dollars in thousands)

requires lessors to account for leases using an approach that is substantially equivalent to existing guidance for sales-type leases, direct financing leases and operating leases.

The amendments of this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018, with early adoption permitted.

The ASU is expected to have a material impact on the Company's Statement of Financial Condition since the Company has operating lease arrangements for which it is the lessee.

FASB Accounting Standards Updates ("ASUs"), Revenue from Contracts with Customers (Topic 606)

The FASB has issued a series of ASUs which, among other things, clarify the principles for recognizing revenue and develop a common revenue standard. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services, that is, the satisfaction of performance obligations, to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. A five step process is defined to achieve this core principle. The new guidance also requires disclosures to enable users of financial statements to understand the nature, timing, and uncertainty of revenue and cash flows arising from contracts with customers.

The amendments of these Updates are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017.

The Company's implementation efforts regarding ASU 2014-09, Revenue from Contracts with Customers, included a scoping analysis of revenue streams and related costs, reviewing the associated contracts, evaluating the timing of when revenues are currently being recognized in light of when the performance obligations are fulfilled and assessing principal vs. agent considerations. The Company concluded its implementation efforts during the fourth quarter of 2017. There will be no material changes in the timing of when revenues are recognized. Although there will be changes on the presentation of certain costs, these changes in presentation are not material to the Company's financial statements. The Company adopted this guidance on January 1, 2018 using the modified retrospective approach.

3. Financial Instruments Owned and Fair Value Measurements

ASC Subtopic 820-10 "Fair Value Measurements and Disclosures" establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels in order to increase consistency and comparability in fair value measurements and disclosures. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

- *Level 1*- Unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date. Valuation on these instruments does not require a significant degree of judgment since valuations are based on quoted prices that are readily available in an active market.

Popular Securities LLC
(a wholly-owned subsidiary of Popular, Inc.)
Notes to Financial Statements
December 31, 2017

(dollars in thousands)

- **Level 2-** Quoted prices other than those included in Level 1 that are observable either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or that can be corroborated by observable market data for substantially the full term of the financial instrument.
- **Level 3-** Inputs are unobservable and significant to the fair value measurement. Unobservable inputs reflect the Company's own assumptions about assumptions that market participants would use in pricing the asset or liability.

The Company maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available. Fair value is based upon quoted market prices when available. If listed price or quotes are not available, the Company employs internally-developed models that primarily use market-based inputs including yield curves, interest rates, volatilities, and credit curves, among others. Valuation adjustments are limited to those necessary to ensure that the financial instrument's fair value is adequately representative of the price that would be received or paid in the marketplace. These adjustments include amounts that reflect counterparty credit quality, the Company's credit standing, constraints on liquidity, and unobservable parameters that are applied consistently.

The estimated fair value may be subjective in nature and may involve uncertainties and matters of significant judgment for certain financial instruments. Changes in the underlying assumptions used in calculating fair value could significantly affect the results. In addition, the fair value estimates are based on outstanding balances without attempting to estimate the value of anticipated future business. Therefore, the estimated fair value may materially differ from the value that could actually be realized on a sale.

Following is a description of the Company's valuation methodologies used for assets measured at fair value, by asset type:

- **Obligations of Puerto Rico, States and political subdivisions:** Obligations of Puerto Rico, States and political subdivisions include municipal bonds. The bonds are classified and the like characteristics divided into specific sectors. Market inputs used in the evaluation process include all or some of the following: trades, bid price or spread, two sided markets, quotes, benchmark curves including but not limited to Treasury benchmarks, London Interbank Offered Rate ("LIBOR") and swap curves, market data feeds such as Municipal Securities Rulemaking Board ("MSRB"), discount and capital rates, and trustee reports. The municipal bonds are classified as Level 2.
- **Mortgage and other asset-backed securities:** Certain agency mortgage and other asset-backed securities ("MBS") are priced based on a bond's theoretical value from similar bonds defined by credit quality and market sector. Their fair value incorporates an option adjusted spread. The agency MBS are classified as Level 2. Other agency MBS such as certain GNMA Puerto Rico Serials are priced using an internally-prepared pricing matrix with quoted prices from local broker dealers. These particular MBS are classified as Level 3.
- **Collateralized mortgage obligations:** Agency and private collateralized mortgage obligations ("CMOs") are priced based on a bond's theoretical value from similar bonds defined by credit quality and market sector and for which fair value incorporates an option adjusted spread. The option adjusted spread model includes prepayment and volatility assumptions, ratings (whole loans collateral) and spread adjustments. These

Popular Securities LLC
(a wholly-owned subsidiary of Popular, Inc.)
Notes to Financial Statements
December 31, 2017

(dollars in thousands)

investment securities are classified as Level 2. Private label CMOs that are priced using significant unobservable inputs are classified as Level 3.

- **Residual interest certificate:** The fair value of the residual interest certificate is priced internally using a model which includes prepayment speed and expected yield assumptions that are unobservable. This instrument is classified as Level 3.
- **Corporate debt securities and investment companies:** Quoted prices for these security types are obtained from broker dealers. Given that the quoted prices are for similar instruments or do not trade in highly liquid markets, the corporate securities and mutual funds are classified as Level 2. The important variables in determining the prices of Puerto Rico tax-exempt mutual fund shares are net asset value, dividend yield and type of assets in the fund. All funds trade based on a relevant dividend yield taking into consideration the aforementioned variables. In addition, demand and supply also affect the price. Open-ended funds are considered to be liquid, as investors can sell their shares continually to the fund and are priced at NAV. Closed-end funds are traded on the secondary market at the shares' market value. Corporate debt securities that trade less frequently are classified as Level 3.

The following table presents the Company's fair value hierarchy for those assets measured at fair value on a recurring basis:

ASSETS	Fair value measurements on a recurring basis as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Collateralized mortgage obligations	\$ -	\$ -	\$ 529	\$ 529
US Government obligations	261	-	-	261
Puerto Rico, States and political subdivisions	-	159	-	159
Mortgage and other asset-backed securities	-	12,302	43	12,345
Corporate debt securities and investment companies	-	5,956	-	5,956
Residual interest certificate	-	-	529	529
Financial instruments owned, at fair value	<u>\$ 261</u>	<u>\$ 18,417</u>	<u>\$ 1,101</u>	<u>\$ 19,779</u>

Popular Securities LLC
(a wholly-owned subsidiary of Popular, Inc.)
Notes to Financial Statements
December 31, 2017

(dollars in thousands)

The following is a reconciliation of the beginning and ending balances for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the year ended December 31, 2017:

	For the year ended December 31, 2017				
	Mortgage and other asset-backed securities	Corporate debt securities and investment companies	Residual interest certificate	Collateralized mortgage obligations	Total
Balance at December 31, 2016	\$ 4,754	\$ -	\$ 602	\$ 1,321	\$ 6,677
Realized and Unrealized Gains (losses) included in earnings (1)	(124)	-	(73)	-	(197)
Purchases	332	-	-	44	376
Sales	(156)	-	-	(365)	(521)
Paydowns and maturities	(875)	-	-	(194)	(1,069)
Transfers out of Level 3	(3,888)	-	-	(277)	(4,165)
Balance at December 31, 2017	\$ 43	\$ -	\$ 529	\$ 529	\$ 1,101

During the year ended December 31, 2017 the Company reclassified approximately \$3,888 of certain Mortgage-backed securities, and \$277 of Collateralized mortgage obligations from Level 3 to Level 2. The Company reclassified these securities as external prices for these instruments became available through an independent pricing source.

The following disclosure provides information on the valuation techniques, significant unobservable inputs, and their ranges for each major category of assets measured at fair value on a recurring basis with a Level 3 balance.

	Fair Value at December 31, 2017	Valuation Technique	Significant Unobservable Inputs	Weighted Average
Collateralized mortgage obligations	\$ 529	Discounted cash flow model	Weighted average life	2.2 years (1.6- 2.3 years)
			Yield	3.9% (3.7% - 4.2%)
			Constant prepayment rate	19.3% (17.8% - 21.5%)
Residual interest certificate	\$ 529	Discounted cash flow model	Weighted average life	5.3 years
			Yield	13%
			Prepayment speed assumption	180
Mortgage and other asset backed securities	\$ 43	Broker quotes	Evaluated quotes	N/A

The significant unobservable inputs used in the fair value measurement of the collateralized mortgage obligations and residual interest certificate are yield, constant prepayment rate, and weighted average life. Significant increases (decreases) in any of those inputs in isolation would result in significantly lower (higher) fair value measurement. Generally, a change in the assumption used for the constant prepayment rate will generate a directionally opposite change in the weighted average life. For example, as the average life is reduced by a higher constant prepayment rate, a lower yield will be realized, and when there is a reduction in the constant prepayment rate, the average life of these collateralized mortgage obligations will extend, thus resulting in a higher yield. These particular financial instruments are valued internally utilizing internal valuation techniques. The unobservable inputs incorporated into the internal discounted cash flow models used to derive the fair value of collateralized mortgage obligations and residual interest certificate are reviewed by the Parent Company's Corporate Treasury unit on a quarterly

Popular Securities LLC
(a wholly-owned subsidiary of Popular, Inc.)
Notes to Financial Statements
December 31, 2017

(dollars in thousands)

basis. In the case of Level 3 financial instruments which fair value is based on broker quotes, the Parent Company's Corporate Treasury unit reviews the inputs used by the broker-dealers for reasonableness utilizing information available from other published sources and validates that the fair value measurements were developed in accordance with ASC Topic 820. The Parent Company's Corporate Treasury unit also substantiates the inputs used by validating the prices with other broker-dealers, whenever possible. At December 31, 2017, Level 3 securities were valued based on broker-dealer indicative quotes or third party vendor pricing determined using pricing models, discounted cash flows methodologies, or similar techniques, for which the determination of fair value is based on significant unobservable inputs that require significant judgment or estimation.

Financial Instruments Not Measured at Fair Value

Following is a description of the Company's valuation methodologies and inputs used to estimate the fair values for each class of financial assets and liabilities not measured at fair value, but for which the fair value is disclosed. The disclosure requirements exclude certain financial instruments and all non-financial instruments.

- **Cash: includes cash on hand.** The carrying amount of cash is a reasonable estimate of its fair value. Cash is classified as Level 1.

The following table presents the carrying and estimated fair values for financial instruments with their corresponding level in the fair value hierarchy.

	At December 31, 2017				
	Carrying amount	Fair value	Level 1	Level 2	Level 3
<u>Financial Assets:</u>					
Cash	\$ 3,187	\$ 3,187	\$ 3,187	\$ -	\$ -

4. Securitization Residual Interest

During the year ended November 30, 2004, the Company transferred approximately \$61 million of GNMA mortgage-backed securities to an irrevocable trust in exchange for collateralized mortgage obligation (CMO) certificates. The Company derecognized the mortgage-backed securities transferred given that it relinquished control over such securities. The mortgage-backed securities transferred were accounted for at fair value prior to securitization. The Company subsequently retained a residual interest certificate (interest only). The residual interests is accounted for at fair value and included in the "Residual Interest Certificate" caption above.

The following table sets forth the weighted average key economic assumptions used in measuring the fair value of the residual retained interest, for which fair value is based on discounted cash flows:

Fair value of residual retained interest	\$ 529
Weighted-average life (in years)	5.3
Prepayment speed assumption	180
Discount rate (yield)	13%

Popular Securities LLC
(a wholly-owned subsidiary of Popular, Inc.)
Notes to Financial Statements
December 31, 2017

(dollars in thousands)

5. Other Intangible Assets

At December 31, 2017, other intangible assets consist of the following:

	Useful Life (years)	
Customer lists	10	\$ 1,500
Covenant not to compete	3	71
		<u>1,571</u>
Less - Accumulated amortization		(1,308)
Other intangibles		<u>263</u>

6. Securities Sold Under Agreements to Repurchase

The following table summarizes certain information on securities sold under agreements to repurchase as of December 31, 2017:

Securities sold under agreements to repurchase	\$ -
Maximum aggregate balance outstanding at any month-end	<u>\$ 7,395</u>
Average monthly aggregate balance outstanding	<u>\$ 2,634</u>
Weighted average interest rate	
At December 31, 2017	-
For the period	<u>1.14%</u>

7. Subordinated Borrowings

The Company has a revolving subordinated loan agreement with Popular, Inc. with the credit period ending on November 15, 2022 and maturing on November 15, 2023. Under the agreement, the Company may borrow up to \$50,000, with an interest rate negotiated at the time of each advance. All borrowings under this agreement qualify as regulatory capital and the agreement includes all statutory restrictions specified by the Uniform Net Capital Rule, as approved by FINRA. The Company had no borrowings outstanding as of December 31, 2017.

8. Deferred Compensation

The Company maintains a Deferred Compensation Plan (the "Plan") for financial consultants.

Under the Plan, the principal and interest thereon have a vesting period of five years. The deferred compensation expense related to this Plan is recognized over the vesting period. The interest on the principal amount deferred is the result of earnings of the investment of such principal in certain financial instruments as defined by the Plan.

Popular Securities LLC
(a wholly-owned subsidiary of Popular, Inc.)
Notes to Financial Statements
December 31, 2017

(dollars in thousands)

Total Plan liability for employees as of December 31, 2017 amounted to \$1,174 included as deferred compensation in the Statement of Financial Condition.

9. Employee Benefit Plan

The Company maintains a contributory savings plan which is available to employees with more than three months of service. Company contributions include a matching contribution and an additional discretionary profit sharing contribution. Employees are fully vested on these contributions after five years of service. The plan's trustee is an affiliated company.

10. Concentration of Credit Risk

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty. At December 31, 2017, there were no outstanding repurchase agreements.

The Company is subject to concentration risk by holding large positions in certain types of securities of a single issuer, including issuers located in a particular country or geographic area. At December 31, 2017, the Company had \$159 in obligations issued or guaranteed by the Puerto Rico Government, its municipalities, and public corporations as part of its trading securities portfolio. Also, the Company's main business is with individual customers and corporations in Puerto Rico.

11. Commitments

At December 31, 2017, the Company has obligations under a number of noncancelable leases with affiliates, for office space which require rental payments as follows:

Year	<u>Minimum Payments</u>
2018	836
2019	825
2020	705
2021	24
Thereafter	-
	<u>\$ 2,390</u>

Certain lease agreements contain provisions for future rent increases. The total amount of rental payments due over the lease term is being charged to rent expense on the straight-line method over the term of the lease. The difference between rent expense recorded and the amount paid is charged to "Deferred rent obligation", which is included in "Accounts payable to affiliates" in the accompanying Statement of Financial Condition. Total Deferred rent obligation as of December 31, 2017 amounted to \$58.

Popular Securities LLC
(a wholly-owned subsidiary of Popular, Inc.)
Notes to Financial Statements
December 31, 2017

(dollars in thousands)

12. Contingent Liabilities

The Company's ordinary course of business subjects it to claims, lawsuits, regulatory examinations and other proceedings. The volatility in prices and declines in value that Puerto Rico municipal bonds and closed-end investment companies that invest primarily in Puerto Rico municipal bonds have experienced since August 2013 have led to regulatory inquiries, customer complaints and arbitrations for most broker-dealers in Puerto Rico, including the Company.

The Company has received customer complaints and is named as a respondent (among other broker-dealers) in 111 arbitration proceedings with aggregate claimed amounts of approximately \$228 million, including one arbitration with claimed damages of approximately \$78 million in which another Puerto Rico broker-dealer is a co-defendant. While the Company believes it has meritorious defenses to the claims asserted in these proceedings, it has often determined that it is in its best interest to settle such claims rather than expend the money and resources required to see such cases to completion.

The Government's defaults and non-payment of its various debt obligations, the Commonwealth government's and the Financial Oversight Management Board's decision to pursue restructurings under Title III and Title VI of PROMESA have increased and may continue to increase the number of customer complaints (and claimed damages) filed against the Company concerning Puerto Rico bonds, including bonds issued by COFINA and GDB, and closed-end investment companies that invest primarily in Puerto Rico bonds. An adverse result in the matters described above or a significant increase in customer complaints could have a material adverse effect on the Company.

The Company has, together with Popular, Inc. and BPPR (collectively, the "Popular Companies") filed an appearance in connection with the Commonwealth of Puerto Rico's pending Title III bankruptcy proceeding. Its appearance was prompted by a request by the Commonwealth's Unsecured Creditors' Committee ("UCC") to allow a broad discovery program under Rule 2004 to investigate, among other things, the causes of the Puerto Rico financial crisis. The Rule 2004 request sought broad discovery not only from the Popular Companies, but also from Banco Santander de Puerto Rico ("Santander") and others, spanning in excess of eleven (11) years. In their respective objections, both the Popular Companies and Santander argued that these requests go substantially beyond the permissible scope of Rule 2004 discovery programs and should either be denied outright or substantially modified. A hearing before Magistrate Judge Gail Dein was held on August 9, 2017. At the hearing, the Court requested that the UCC and the PROMESA Oversight Board, who opposed the UCC's request, submit further briefing on this subject. The parties argued their respective positions at the omnibus hearing held on November 15, 2017. Upon listening to arguments on this matter, Magistrate Dein denied the UCC's request without prejudice, to allow the law firm of Kobre & Kim to carry out its own independent investigation on behalf of the PROMESA Oversight Board.

Since the August 2017 hearing, the Popular Companies have been served with additional requests for the preservation and voluntary production of certain COFINA-related documents and witnesses from the UCC and COFINA Agents in connection with the COFINA-Commonwealth adversary complaint, as well as from the Oversight Board's Independent Investigator, Kobre & Kim. The Popular Companies are cooperating with all such requests but have asked that such requests be submitted in the form of a subpoena to address privacy and confidentiality considerations pertaining to some of the documents involved in the production.

(dollars in thousands)

On at least a quarterly basis, the Company assesses its liabilities and contingencies in connection with outstanding legal proceedings utilizing the latest information available. For matters where it is probable that the Company will incur a loss and the amount can be reasonably estimated, the Company establishes an accrual for the estimated loss. Once established, the accrual is adjusted on at least a quarterly basis as appropriate to reflect any relevant developments. For matters where a material loss is not probable or the amount of the loss cannot be estimated, no accrual is established.

In certain cases, exposure to loss exists in excess of the accrual to the extent such loss is reasonably possible, but not probable. Management believes and estimates that the aggregate range of reasonably possible losses (with respect to those matters where such limits may be determined, in excess of amounts accrued), for current legal proceedings ranges from \$0 to approximately \$6 million as of December 31, 2017. For certain other cases and unasserted claims, management cannot reasonably estimate the possible loss at this time. Any estimate involves judgment, given the varying stages of the claims and proceedings (including the fact that many of them are currently in preliminary stages), the existence of multiple defendants in several of the current proceedings whose share of the liability has not been determined, the numerous unresolved issues in many proceedings, and the inherent uncertainty of the various potential outcomes of such proceedings. Accordingly, management's estimate will change from time-to-time, and actual losses may be more or less than the current estimate.

While the final outcome of legal proceedings is inherently uncertain, based on information currently available and advice of legal counsel, management believes that the amount it has already accrued is adequate and any incremental liability arising from the Company's legal proceedings will not have an adverse material effect on the Company's financial position as a whole. However, in the event of unexpected future developments, it is possible that the ultimate resolution of these matters, if unfavorable, may be material to the Company's financial position in a particular period.

13. Clearance Agreements

The Company has a clearing and custody agreements with NFS, whereby NFS will execute, clear and custody securities on behalf of the Company and its clients. NFS is a member of various stock exchanges and subject to the rules and regulations of such organizations as well as those of the Securities and Exchange Commission. Under the terms of the agreement, NFS clears and executes the brokerage transactions of the Company's customers on a fully disclosed basis.

14. Guarantees

Under the terms of the clearance agreement with NFS, the clearing broker has the right to charge us for losses that result from a counterparty's, introduced by the Company, failure to fulfill its contractual obligations which default could have material effect on our business, financial condition, and operating results. The maximum potential amount of future payments that the Company could be required to make under this guarantee cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under this arrangement and has not recorded any contingent liability in the financial statements for these indemnifications. During 2017, the Company did not pay any amounts related to this guaranty.

15. Related Party Transactions

In the normal course of business, the Company enters into transactions with affiliated companies. As of December 31, 2017, there were no outstanding repurchase agreements with affiliates

At December 31, 2017, the Company owned securities issued by affiliates and affiliated funds (Popular funds and Puerto Rico Investors Tax Free funds) with a fair value of approximately \$2,537.

During 2017, the Company maintained a services agreement with Banco Popular de Puerto Rico to provide various administrative and financial services. The agreement is renewed on an annual basis.

During 2017, the Company maintained a services agreement with its Parent Company to provide various administrative and managerial services. The agreement is renewed on an annual basis..

16. Stock Option Plan

The Company participates in Popular, Inc.'s Omnibus Incentive Plan (the "Incentive Plan"), which permits the granting of incentive awards in the form of Annual Incentive Awards, Long-term Performance Unit Awards, Stock Options, Stock Appreciation Rights, Restricted Stock, Restricted Units or Performance Shares. Participants in the Incentive Plan are designated by the Compensation Committee of the Board of Directors of Popular, Inc. (or its delegate as determined by the Board). The Company is allocated stock compensation expense based upon an analysis of the awards granted to its employees. This Incentive Plan provides for the issuance of Popular, Inc.'s common stock at a price equal to its fair market value at the grant date, subject to certain plan provisions.

Popular, Inc. uses the fair value method of recording stock options as described in FASB ASC 718, "Stock Compensation". All future stock-based compensation awards will be expensed over the vesting period based on the fair value at the date the awards are granted.

17. Net Capital Requirements

As a registered broker-dealer, the Company is subject to the Uniform Net Capital Rule 15c3-1 (the "Rule") under the Securities Exchange Act of 1934 and has elected to compute its net capital in accordance with the alternative method of the Rule. Under the alternative method, the Company is required to maintain at all times a net capital equal to \$250 in accordance with the Rule. At December 31, 2017, the Company's net capital of \$6,925 was \$6,675 in excess of required net capital of \$250. The Company's ratio of debt to equity was 0%, which is below the maximum requirement specified by the Rule.

18. Subsequent Events

Management has evaluated the effects of subsequent events that have occurred subsequent to December 31, 2017 up to March 1, 2018, the date the financial statements were available to be issued.

Subsequent to December 31, 2017, Popular, Inc., the parent company, approved on the 23rd day of February 2018, by and through its Board of Directors a capital contribution to the Company of \$10,000 to be paid during the first quarter of 2018.
